

Building the Future of Teacher Education

The University of Burgos is embedding EU-SIDE into formal teacher education.

Sustainability Strategy

UBU is integrating EU-SIDE results into formal teacher education as a long-term sustainability commitment.

Teacher Education Programmes

The framework will be incorporated into: Degree in Primary Education Master's Degree in Secondary Education.

Curriculum Integration

Learning activities will be embedded in subjects such as Innovation and Research and Education for Citizenship.

Democratic Education

The objective is to embed a Social Innovation and Democratic Education framework into future teacher education.

Progress and success indicator

Progress already includes EU-SIDE project presentations and discussions with teacher educators involved in in-service teacher training.

Success will be measured through inclusion of the framework in official course guidelines.
